

To: All DEPA® customers

Date: Monday, August 04, 2014

Dear customer,

Following our launch of the new DEPA® DH (flanged) Aluminum pump in sizes 15, 25 and 40 in March this year, we are now ready to launch sizes 50 and 80 at the beginning of September. We will inform you separately about the launch.

With the imminent availability of the complete aluminum pump range we would like to take this opportunity to notify you of the following:

- The DEPA® DL Aluminum pumps can be ordered until **December 31, 2014**, here after all orders received will automatically be converted into the DH Aluminum pumps
- All consumables are interchangeable between the DL and DH variant
- All non-consumables (i.e. pump chambers, manifolds, center blocks, etc.) will remain available for ordering as spare parts until **December 31, 2019**

It is our intention to make the product range transition as smooth as possible for you and your company.

We deeply value your relationship with us and are committed to providing you with the highest level of service.

Should you have any questions regarding our services, please contact our head office in Dusseldorf, Germany at +49 211 5956-0, customer service or your sales representative who will be happy to help you.

With kind regards,

Chris Blanchard
