

CRANE

**CRYOFLO** <sub>H<sub>2</sub></sub>

Keeping Cryogenics Cool

# SOLUTIONS FOR HYDROGEN APPLICATIONS

## Valves, Pipe & Tube Fittings

## **PVF** For Production, Storage & Transportation of H<sub>2</sub>

Solutions for production, transportation, transfer, and storage of Hydrogen, backed by decades of field experience in severe service applications

For hydrogen energy to be an effective and efficient alternative to fossil fuels, liquefaction plants, storage facilities, transportation methods and pipelines must be outfitted with state-of-the-art PVF components. Crane ChemPharma & Energy's CRANE® CRYOFLO™, a new line of Pipe Valves and Fittings (PVF) will be focused on Solving Customer's Toughest Challenges within the Hydrogen Industry.
