CRANE ChemPharma Automation
and Service Centers

SERVICE CENTER RELIABILITY & 24 HOURS SERVICE

CRANE ChemPharma Automation & Service Centers are strategically located provide: automated valve packages, valve modification, valve repair, and application counseling.

Reliable valve packages

Mounting configurations are provided for a variety of accessories including:

- Limit switches
- Solenoid valves
- Positioners
- Filter regulators
- Manual overrides
- Speed control valves

Standard service

Standard valve repair includes the replacement of sleeves or seats, seals, stem packing, and miscellaneous hardware.

Warranty

Each valve is thoroughly cleaned, inspected, remanufactured, and tested. Valves remanufactured at Xomox Service Centers carry the standard factory, new-valve warranty.

Unless otherwise instructed, stainless steel and other alloy valves are returned unpainted.

Cast steel valves will be painted black. Ductile iron valves will be painted gray.

Fully tested

All valves remanufactured by Xomox Service Centers are tested in accordance with Xomox original manufacturing procedures.

Factory-trained technicians assure smart service

Service Center personnel receive the same rigorous training and evaluation as the factory personnel who manufacture the broad line of Xomox valves.

In addition, they are specially trained in valve automation, modification, and repair.

Our experienced personnel can provide design and engineering assistance upon request.

24-hour service availability

Emergency 24-hour service hot-lines are: **225-644-2300** for the Baton Rouge, LA, U.S.A. Service Center and **780-462-3100** for Edmonton, Canada Service Center.

Field repair services

Xomox technicians are available for field repair and emergency service at your site.

On-site inventories assure fast response

Whatever your requirements, CRANE ChemPharma Automation & Service Centers respond quickly. They maintain inventories of valves, repair parts, and control accessories on-site.

Genuine quality parts

All parts used in automation, modification, and repair are factory authorized and fully conform to Xomox manufacturing specifications. Don't accept any third-party parts. They often contribute to valve failure.

Traceability

A stainless steel, dated tag is attached to all remanufactured and modified valves. It includes standard ANSI information and identifies the Xomox facility performing the service.
